ARTIFICIAL GRASS ADHESIVES

POLYURETHANE

Artificial grass has undoubtedly become one of the most used solutions for homes, sports facilities or other places of leisure.

Thanks to the low cost of maintenance required, there are already many spaces that have this alternative to natural grass. The saving in water, a good as precious as it is scarce at present, is one of the advantages most valued by users

Neoflex adhesives for artificial grass are present all over the world, offering unbeatable results against very diverse climatic conditions.

POLYURETHANE ADHESIVES

Artificial grass
